

SE HF X-80 & HF-360 PLUS KIT

1, Please mount the bracket for the Plus Kit at the bottom of as per the photo.

2, Now attach the HF mobiles to the bracket.

The HF mobiles can be angled horizontal or at a more vertical angle if space is an issue. Please ensure that the angle mounts are tightened up with the Allen key provided.

3, The 40 & 80 meter mobiles can be tuned in separately by moving the stainless steel whip up & down until SWR is achieved.
